RESULTS

Since establishment in 2004 our results have been substantial, and cover a wide spectrum:

- 80% success rate in funding submissions for businesses, community groups and sporting clubs
- Development of business expansion projects for small businesses
- Feasibility assessment for start-up businesses
- Research of funding opportunities for business and community groups
- Design and implementation of community consultation processes

VALUE

At Tanner Consulting we support our Clients with a team of professionals holding multidisciplinary qualifications and experience.

This provides Clients with the benefit of a single point of reference for their project development assistance needs, and potential savings in time and resources over the life of a project. We work cooperatively and productively with our Clients' own personnel.

Where appropriate for a specific project, Tanner Consulting can also access capability in a specialised field from our comprehensive network of associates.

- **Project Development**
- **Community Consultation**
- **Social Impact Assessment**
- **Funding Submissions**
