

Social Impact Assessment

OUR CLIENTS

At Tanner Consulting we facilitate the development of projects for organisations from a wide variety of sectors, including:

- Business
- Community
- Non-government
- Government

Our clients are located in Rockhampton and across Central Queensland.

Their needs, and the changing population and development trends in the region, have encouraged us to expand our professional capacity to deliver services that address the social impact of these developments.

OUR WORK

"Social Impact Assessment includes the processes of analysing, monitoring and managing the intended and unintended social consequences, both positive and negative, of planned interventions (policies, programs, plans, projects) and any social change processes invoked by those interventions." (International Association for Impact Assessment, 2003).

Tanner Consulting's purpose in Social Impact Assessment is to assist in the achievement of more sustainable and equitable biophysical and human environments. Our economy and community is changing quickly, with an extensive list of developments and planned interventions in progress or proposed.

Tanner Consulting's SIA capacity includes qualifications and experience in:

- Community profile development
- Stakeholder identification
- Facilitation of stakeholder involvement (e.g. meetings, surveys, workshops)
- Identification of potential areas of impact
- Risk assessment and mitigation
- Strategy development to eliminate, mitigate or compensate for identified impact

We have the capability to negotiate complex planning systems to provide our clients with certainty and compliance in project delivery.

RESULTS

Some examples of projects completed by our team members include:

- Design, management, oversight and participation in social impact assessments of large and small scale infrastructure developments
- Long term evaluation of individuals affected by critical incident trauma in a small rural community
- Analysis program implementation and outcome monitoring for a professional team experiencing workplace change
- Impact Evaluation for an electronic medical model of health service delivery on a selected client population

VALUE

Our Clients obtain significant benefits from working with Tanner Consulting:

- We deliver, tailored, best practice social impact assessment methodology to suit our clients needs
- Access to a multidisciplinary team with work experience in regional, rural and remote communities
- Access to a network of associates working in business and community development
- Cost effective options including working with in-house team members, as a member of a consulting team, or as a stand alone commission
- **Project Development**
